| | 15. Compliance with internal policies | | P | |
| Learning and Growth | 16. Skilled and motivated people | S | P | P |
| | 17. Product and business innovation culture | P | | |

| Figure 5—IT-related Goals | | |
|---|---|---|
| **IT BSC Dimension** | **Information and Related Technology Goal** | |
| Financial | 01 | Alignment of IT and business strategy |
| | 02 | IT compliance and support for business compliance with external laws and regulations |
| | 03 | Commitment of executive management for making IT-related decisions |
| | 04 | Managed IT-related business risk |
| | 05 | Realised benefits from IT-enabled investments and services portfolio |
| | 06 | Transparency of IT costs, benefits and risk |
| Customer | 07 | Delivery of IT services in line with business requirements |
| | 08 | Adequate use of applications, information and technology solutions |
| Internal | 09 | IT agility |
| | 10 | Security of information, processing infrastructure and applications |
| | 11 | Optimisation of IT assets, resources and capabilities |
| | 12 | Enablement and support of business processes by integrating applications and technology into business processes |
| | 13 | Delivery of programmes delivering benefits, on time, on budget, and meeting requirements and quality standards |
| | 14 | Availability of reliable and useful information for decision making |
| | 15 | IT compliance with internal policies |
| Learning and Growth | 16 | Competent and motivated business and IT personnel |
| | 17 | Knowledge, expertise and initiatives for business innovation |

**Aktivitas EDM01.01**

| Activities |
| --- |
| 1. Analyse and identify the internal and external environmental factors (legal, regulatory and contractual obligations) and trends in the business environment that may influence governance design. |
| 2. Determine the significance of IT and its role with respect to the business. |
| 3. Consider external regulations, laws and contractual obligations and determine how they should be applied within the governance of enterprise IT. |
| 4. Align the ethical use and processing of information and its impact on society, natural environment, and internal and external stakeholder interests with the enterprise's direction, goals and objectives. |
| 5. Determine the implications of the overall enterprise control environment with regard to IT. |
| 6. Articulate principles that will guide the design of governance and decision making of IT. |
| 7. Understand the enterprise's decision-making culture and determine the optimal decision-making model for IT. |
| 8. Determine the appropriate levels of authority delegation, including threshold rules, for IT decisions. |

**Aktivitas EDM01.02**

| Activities |
| --- |
| 1. Communicate governance of IT principles and agree with executive management on the way to establish informed and committed leadership. |
| 2. Establish or delegate the establishment of governance structures, processes and practices in line with agreed-on design principles. |
| 3. Allocate responsibility, authority and accountability in line with agreed-on governance design principles, decision-making models and delegation. |
| 4. Ensure that communication and reporting mechanisms provide those responsible for oversight and decision-making with appropriate information. |
| 5. Direct that staff follow relevant guidelines for ethical and professional behaviour and ensure that consequences of non-compliance are known and enforced. |
| 6. Direct the establishment of a reward system to promote desirable cultural change. |

**Aktivitas EDM01.03**

| Activities |
| --- |
| 1. Assess the effectiveness and performance of those stakeholders given delegated responsibility and authority for governance of enterprise IT. |
| 2. Periodically assess whether agreed-on governance of IT mechanisms (structures, principles, processes, etc.) are established and operating effectively. |
| 3. Assess the effectiveness of the governance design and identify actions to rectify any deviations found. |
| 4. Maintain oversight of the extent to which IT satisfies obligations (regulatory, legislation, common law, contractual), internal policies, standards and professional guidelines. |
| 5. Provide oversight of the effectiveness of, and compliance with, the enterprise's system of control. |
| 6. Monitor regular and routine mechanisms for ensuring that the use of IT complies with relevant obligations (regulatory, legislation, common law, contractual), standards and guidelines. |

**Aktivitas EDM02.01**

| Activities |
| --- |
| 1. Understand stakeholder requirements; strategic IT issues, such as dependence on IT; and technology insights and capabilities regarding the actual and potential significance of IT for the enterprise's strategy. |
| 2. Understand the key elements of governance required for the reliable, secure and cost-effective delivery of optimal value from the use of existing and new IT services, assets and resources. |
| 3. Understand and regularly discuss the opportunities that could arise from enterprise change enabled by current, new or emerging technologies, and optimise the value created from those opportunities. |
| 4. Understand what constitutes value for the enterprise, and consider how well it is communicated, understood and applied throughout the enterprise's processes. |
| 5. Evaluate how effectively the enterprise and IT strategies have been integrated and aligned within the enterprise and with enterprise goals for delivering value. |
| 6. Understand and consider how effective current roles, responsibilities, accountabilities and decision-making bodies are in ensuring value creation from IT-enabled investments, services and assets. |
| 7. Consider how well the management of IT-enabled investments, services and assets aligns with enterprise value management and financial management practices. |
| 8. Evaluate the portfolio of investments, services and assets for alignment with the enterprise's strategic objectives; enterprise worth, both financial and non-financial; risk, both delivery risk and benefits risk; business process alignment; effectiveness in terms of usability, availability and responsiveness; and efficiency in terms of cost, redundancy and technical health. |

**Aktivitas EDM02.02**

| Activities |
| --- |
| 1. Define and communicate portfolio and investment types, categories, criteria and relative weightings to the criteria to allow for overall relative value scores. |
| 2. Define requirements for stage-gates and other reviews for significance of the investment to the enterprise and associated risk, programme schedules, funding plans, and the delivery of key capabilities and benefits and ongoing contribution to value. |
| 3. Direct management to consider potential innovative uses of IT that enable the enterprise to respond to new opportunities or challenges, undertake new business, increase competitiveness, or improve processes. |
| 4. Direct any required changes in assignment of accountabilities and responsibilities for executing the investment portfolio and delivering value from business processes and services. |
| 5. Define and communicate enterprise-level value delivery goals and outcome measures to enable effective monitoring. |
| 6. Direct any required changes to the portfolio of investments and services to realign with current and expected enterprise objectives and/or constraints. |
| 7. Recommend consideration of potential innovations, organisational changes or operational improvements that could drive increased value for the enterprise from IT-enabled initiatives. |

**Aktivitas EDM02.03**

| Activities |
| --- |
| 1. Define a balanced set of performance objectives, metrics, targets and benchmarks. Metrics should cover activity and outcome measures, including lead and lag indicators for outcomes, as well as an appropriate balance of financial and non-financial measures. Review and agree on them with the IT and other business functions, and other relevant stakeholders. |
| 2. Collect relevant, timely, complete, credible and accurate data to report on progress in delivering value against targets. Obtain a succinct, high-level, all-around view of portfolio, programme and IT (technical and operational capabilities) performance that supports decision making, and ensure that expected results are being achieved. |
| 3. Obtain regular and relevant portfolio, programme and IT (technological and functional) performance reports. Review the enterprise's progress towards identified goals and the extent to which planned objectives have been achieved, deliverables obtained, performance targets met and risk mitigated. |
| 4. Upon review of reports, take appropriate management action as required to ensure that value is optimised. |
| 5. Upon review of reports, ensure that appropriate management corrective action is initiated and controlled. |

**Aktivitas EDM03.01**

| Activities |
| --- |
| 1. Determine the level of IT-related risk that the enterprise is willing to take to meet its objectives (risk appetite). |
| 2. Evaluate and approve proposed IT risk tolerance thresholds against the enterprise's acceptable risk and opportunity levels. |
| 3. Determine the extent of alignment of the IT risk strategy to enterprise risk strategy. |
| 4. Proactively evaluate IT risk factors in advance of pending strategic enterprise decisions and ensure that risk-aware enterprise decisions are made. |
| 5. Determine that IT use is subject to appropriate risk assessment and evaluation, as described in relevant international and national standards. |
| 6. Evaluate risk management activities to ensure alignment with the enterprise's capacity for IT-related loss and leadership's tolerance of it. |

**Aktivitas EDM03.02**

| Activities |
| --- |
| 1. Promote an IT risk-aware culture and empower the enterprise to proactively identify IT risk, opportunity and potential business impacts. |
| 2. Direct the integration of the IT risk strategy and operations with the enterprise strategic risk decisions and operations. |
| 3. Direct the development of risk communication plans (covering all levels of the enterprise) as well as risk action plans. |
| 4. Direct implementation of the appropriate mechanisms to respond quickly to changing risk and report immediately to appropriate levels of management, supported by agreed-on principles of escalation (what to report, when, where and how). |
| 5. Direct that risk, opportunities, issues and concerns may be identified and reported by anyone at any time. Risk should be managed in accordance with published policies and procedures and escalated to the relevant decision makers. |
| 6. Identify key goals and metrics of risk governance and management processes to be monitored, and approve the approaches, methods, techniques and processes for capturing and reporting the measurement information. |

**Aktivitas EDM03.03**

| Activities |
| --- |
| 1. Monitor the extent to which the risk profile is managed within the risk appetite thresholds. |
| 2. Monitor key goals and metrics of risk governance and management processes against targets, analyse the cause of any deviations, and initiate remedial actions to address the underlying causes. |
| 3. Enable key stakeholders' review of the enterprise's progress towards identified goals. |
| 4. Report any risk management issues to the board or executive committee. |

**Aktivitas EDM04.01**

| Activities |
| --- |
| 1. Examine and make judgement on the current and future strategy, options for providing IT resources, and developing capabilities to meet current needs and future needs (including sourcing options). |
| 2. Define the principles for guiding the allocation and management of resources and capabilities so that IT can meet the needs of the enterprise, with the required capability and capacity according to the agreed-on priorities and budgetary constraints. |
| 3. Review and approve the resource plan and enterprise architecture strategies for delivering value and mitigating risk with the allocated resources. |
| 4. Understand requirements for aligning resource management with enterprise financial and human resources (HR) planning. |
| 5. Define principles for the management and control of the enterprise architecture. |

**Aktivitas EDM04.02**

| Activities |
| --- |
| 1. Communicate and drive the adoption of the resource management strategies, principles, and agreed-on resource plan and enterprise architecture strategies. |
| 2. Assign responsibilities for executing resource management. |
| 3. Define key goals, measures and metrics for resource management. |
| 4. Establish principles related to safeguarding resources. |
| 5. Align resource management with enterprise financial and HR planning. |

**Aktivitas EDM04.03**

| Activities |
| --- |
| 1. Monitor the allocation and optimisation of resources in accordance with enterprise objectives and priorities using agreed-on goals and metrics. |
| 2. Monitor IT sourcing strategies, enterprise architecture strategies, IT resources and capabilities to ensure that current and future needs of the enterprise can be met. |
| 3. Monitor resource performance against targets, analyse the cause of deviations, and initiate remedial action to address the underlying causes. |

**Aktivitas EDM05.01**

| Activities |
| --- |
| 1. Examine and make a judgement on the current and future mandatory reporting requirements relating to the use of IT within the enterprise (regulation, legislation, common law, contractual), including extent and frequency. |
| 2. Examine and make a judgement on the current and future reporting requirements for other stakeholders relating to the use of IT within the enterprise, including extent and conditions. |
| 3. Maintain principles for communication with external and internal stakeholders, including communication formats and communication channels, and for stakeholder acceptance and sign-off of reporting. |

**Aktivitas EDM05.02**

| Activities |
| --- |
| 1. Direct the establishment of the communication strategy for external and internal stakeholders. |
| 2. Direct the implementation of mechanisms to ensure that information meets all criteria for mandatory IT reporting requirements for the enterprise. |
| 3. Establish mechanisms for validation and approval of mandatory reporting. |
| 4. Establish reporting escalation mechanisms. |

**Aktivitas EDM05.03**

| Activities |
| --- |
| 1. Periodically assess the effectiveness of the mechanisms for ensuring the accuracy and reliability of mandatory reporting. |
| 2. Periodically assess the effectiveness of the mechanisms for, and outcomes from, communication with external and internal stakeholders. |
| 3. Determine whether the requirements of different stakeholders are met. |
